PROTOCOL OF THE ETERNAL REVENANT

1CP

Awakened Dynasty

When: Any phase, when your Necrons Infantry Character is destroyed.

Target: That destroyed model; once per model per battle.

Effect: End of phase, return it near where destroyed, outside Engagement Range, at half wounds. **It returns as its own one-model unit.**

PROTOCOL OF THE UNDYING LEGIONS

1CP

Awakened Dynasty

When: Opponent's Shooting or Fight phase, after an enemy resolves attacks.

Target: One Necrons unit that lost one or more models to those attacks.

Effect: Activate **Reanimation Protocols** and reanimate D3 wounds, or D3+1 if led by a Necrons Character. Other applicable Reanimation rules apply.

PROTOCOL OF THE HUNGRY VOID

1CP

Awakened Dynasty

When: Fight phase.

Target: One Necrons unit not yet selected to fight.

Effect: Until phase end, +1 Strength to melee weapons; if led by a Necrons Character, also improve melee AP by 1 (not cumulative with other AP improvements).

PROTOCOL OF THE SUDDEN STORM

1CP

Awakened Dynasty

When: Your Movement phase.

Target: One Necrons unit.

Effect: Until turn end, its ranged weapons gain Assault. If led by a Necrons Character, re-roll Advance rolls until phase end.

PROTOCOL OF THE CONQUERING TYRANT

1CP

Awakened Dynasty

When: Your Shooting phase.

Target: One Necrons unit not yet selected to shoot.

Effect: Against targets within half range, re-roll Hit rolls of 1; if led by a Necrons Character, re-roll all Hits instead.

PROTOCOL OF THE VENGEFUL STARS

2CP

Awakened Dynasty

When: Opponent's Shooting phase, after an enemy destroys a Necrons unit.

Target: One Necrons Character unit that was within 6" of the destroyed unit.

Effect: After the attacker finishes, your unit shoots as if your Shooting phase, only into that enemy and only if eligible.

ARMY RULE

Reanimation Protocols: End of your Command phase, every eligible unit on the battlefield reanimates D3 wounds. Heal wounded models first; if all survivors are full and the unit is below Starting Strength, return destroyed models one wound at a time. Stop at full strength.

Reanimator aura adds D3. It also applies when Undying Legions activates the protocols.

PHASE REMINDERS

Before first turn

- Deploy Flayed Ones with Infiltrators.
- Pair each Technomancer with one Wraith unit; Lord leads Skorpekh.

Command

- Trigger **Reanimation Protocols**; resolve wounded models before returned models.
- Track Reanimator 3" aura before rolling.

Movement

- Technomancers each heal D3 at phase end.
- Wraith Form after moving over an enemy.
- Use Veil at the end of the opponent's turn; redeploy in your Reinforcements step.

Shooting

- Void Dragon Matter Absorption before selecting units to shoot.
- Lokhust re-rolls depend on closest target / enemy objective.
- Nekrosor pistols already have Sustained Hits 2; do not add Sustained Hits 1.

Charge / Fight

- Skorpekh Lord's Crimson Harvest after his Charge move.
- Charged Skorpekhs re-roll all melee Hits; otherwise re-roll 1s.
- Nightbringer Drain Life at Fight phase end.

DETACHMENT RULE

AWAKENED DYNASTY

Command Protocols: While a Necrons Character model is leading this unit, add 1 to Hit rolls for attacks made by models in that unit.

Applied to the Skorpekh and both Wraith attachments on page 1. Red values show final Hit first, then the original characteristic in parentheses.

AURA POSITIONING

- **Nekrosor 3"**: another Destroyer Cult unit switches on his Lone Operative.
- **Nekrosor 6"**: Destroyer Cult units gain Sustained Hits 1; other eligible Necrons gain it only into their closest eligible target.
- **Nekrosor 6"**: Nullstone grants FNP 5+ against mortal wounds and Psychic Attacks.
- **Reanimator 3"**: units gain an additional D3 whenever protocols activate.
- **Technomancer 6"**: one model heals D3 at end of Movement.
