ARMY RULES & DAEMONIC INCURSION STRATAGEMS

SHADOW OF CHAOS & WARP RIFTS

Shadow areas: Own deployment zone always. At start of ANY EITHER PLAYER'S phase, control at least half the objectives in No Man's Land / enemy zone: that area is Shadow until end of the SAME EITHER PLAYER'S phase. No objectives there = no Shadow this way.
Manifestation: Friendly Daemons in Shadow: +1 Battle-shock roll; success heals one model D3 W, or returns D3 Plaguebearers instead.
Terror: Enemy in Shadow and/or within 6″ of GUO/LoC/Skarbrand: −1 Battle-shock; failure causes D3 mortals.
Warp Rifts: Deep Strike **>6" horizontally** from enemies if set up **wholly** in Shadow and/or wholly within 6″ of a matching-god Greater Daemon; otherwise >8″. These are strict distances.

1. THE REALM OF CHAOS - 1CP

End of THEIR turn: up to 2 Daemon units in Shadow, or 1 elsewhere; all unengaged. Place in Strategic Reserves; **MUST ingress** in YOUR NEXT Movement phase, even turn 1.

2. WARP SURGE - 1CP

YOUR Charge phase: one Daemon unit **in Shadow** can charge after Advancing this turn. Lasts until end of YOUR Charge phase.

3. DRAUGHT OF TERROR - 1CP

YOUR Shooting phase / EITHER PLAYER'S Fight phase. **ONE unit not yet selected to shoot/fight: AP*** values and full Wound re-rolls vs Battle-shocked targets until end of YOUR Shooting phase / EITHER PLAYER'S Fight phase, respectively.

4. DAEMONIC INVULNERABILITY - 1CP

THEIR Shooting phase, just after targets selected: one targeted Daemon unit re-rolls invulnerable saves of 1 until end of THEIR Shooting phase.

5. DENIZENS OF THE WARP - 1CP

YOUR Movement phase: one arriving Deep Strike Daemon unit may set up >6″ horizontally from enemies anywhere, without Shadow requirement.

6. CORRUPT REALSPACE - 1CP

Start of EITHER PLAYER'S Command phase. One Daemon unit on controlled objective: sticky until opponent controls it at start/end of any turn; while yours, area within 6″ is Shadow.
