- **Slashing Dive:** MY Movement, after a Normal move: select one enemy moved over; roll 1D6 per Screamer in unit, each 4+ = 1 mortal wound.
- No dive after Advance, Fall Back or arrival. No native Devs: Anti 4+ guarantees wounds vs listed targets, not mortals.
- Within 6″ of Kairos/LoC: in Shadow. LoC's +1 S is ranged only, so does not buff bites.

AURA & ARRIVAL REMINDERS

- Be'lakor's 6″ Shadow area works for every god; Greater Daemon Shadow auras require matching god.
- LoC, Kairos, GUO and Skarbrand are themselves in Shadow via their own god auras.
- An arriving Monster cannot use its own aura to give itself a closer Deep Strike. Check the qualifying Shadow/other model **before** setting it up.

ARMY RULES, STRATAGEMS & PHASE REMINDERS

SHADOW OF CHAOS & WARP RIFTS

Shadow areas: Own deployment zone always. Start of **any phase**: control at least half the objectives in No Man's Land / enemy zone = that whole area is Shadow for the phase. No objectives there = no Shadow this way.
Manifestation: Friendly Daemons in Shadow: +1 Battle-shock roll; success heals one model D3 W, or returns D3 Plaguebearers instead.
Terror: Enemy in Shadow and/or within 6″ of GUO/Kairos/LoC/Skarbrand: −1 Battle-shock; failure causes D3 mortals.
Warp Rifts: Deep Strike **>6" horizontally** from enemies if set up **wholly** in Shadow and/or wholly within 6″ of a matching-god Greater Daemon; otherwise >8″. These are strict distances.

BATTLEFIELD REMINDERS

- Plaguebearer sticky control alone creates no 6″ Shadow bubble; **Corrupt Realspace** does.
- Be'lakor gets no god-specific aura buff. His Shadow Lord re-rolls can affect this entire roster.
- Keep CP for repositioning, Advance-charge, or AP; Kairos's bonus CP test is end of MY Command.

DAEMONIC INCURSION STRATAGEMS

CORRUPT REALSPACE - 1CP: Start of **either Command**. Daemon unit on controlled objective: sticky until opponent controls it at start/end of any turn; while yours, area within 6″ is Shadow.
WARP SURGE - 1CP: MY Charge: Daemon unit **in Shadow** can charge after Advancing this turn.
DRAUGHT OF TERROR - 1CP: MY Shooting / either Fight, before selecting unit to shoot/fight: improve AP by 1 this phase; full Wound re-rolls against Battle-shocked targets.
DENIZENS OF THE WARP - 1CP: MY Movement: arriving Deep Strike Daemon unit may set up >6″ horizontally from enemies anywhere, without Shadow requirement.
THE REALM OF CHAOS - 1CP: End of opponent turn: up to 2 Daemon units in Shadow, or 1 elsewhere; all unengaged. Place in Strategic Reserves; **MUST ingress in MY next Movement, even turn 1**.
DAEMONIC INVULNERABILITY - 1CP: Opponent Shooting, just after targets selected: one targeted Daemon unit re-rolls invulnerable saves of 1 until phase end.

DON'T FORGET - PHASE TRIGGERS

START OF BATTLE ROUND: Be'lakor chooses Shadow Form.
START OF EITHER COMMAND: Corrupt Realspace window. Opponent Battle-shock step: Be'lakor's Pall if selected.
END OF MY COMMAND: Kairos Ld test for CP; Plaguebearers make controlled objective sticky.
MY MOVEMENT: Screamers' Normal move flyover mortals. End: GUO picks −1 T target within 12″. Arrivals: check Shadow / matching god / Denizens; Realm units must return.
MY SHOOTING: LoC picks Bolt ability. Pick safe/focused separately for each Monster weapon; resolve Hazardous when required. Check LoC +1 S and Be'lakor re-roll auras.
MY CHARGE / EITHER FIGHT: Skarbrand Advance-charge is native. Others need Warp Surge after Advance. Draught gives +1 AP.
OPPONENT'S TURN: Kairos tax once/turn within 12″; Wreathed shooting limit if chosen. Invulnerability when targets declared. End: Realm of Chaos pickup.
